

NEW PE 100-el

ELECTRICALLY CONDUCTIVE PE 100 INDUSTRIAL PIPING SYSTEM

- Same pressure resistance as PE 100.
- High resistance to slow crack growth (SCG) as with PE 100.
- Maximum safety for pipe applications.
- Excellent weldability.
- PE 100 and all components are physiologically harmless, thus allows universal applications.
- Electrically conductive.
Surface resistance $\leq 10^6 \Omega$.
Suitable for applications in ATEX-protected zones.

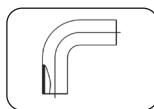

SUPPLY PROGRAMME PE 100-EL BLACK (MAT.CODE 28)

PIPES (extruded)

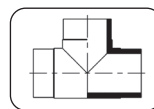

Pipes 5 m
Code 705
Ø 32 - 315 mm

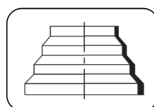

FITTINGS FOR BUTT-WELDING (injection moulded)

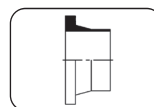

MULTI-bend 90°
Code 068
Ø 32 - 160 mm

Tee
Code 006
Ø 32 - 315 mm

Reducer concentric
Code 007
Ø 32 - 315 mm

Stub flange DIN
Code 012
Ø 32 - 315 mm
